Learning Outcomes

The activities and assessments in this course are based on the [Core Competencies](#) and [Curricular Competencies](#) provided by the Ministry of Education of BC

First Peoples Principles of Learning

Each section of the course will present a learning principle specific to the First Peoples. These were created by the BC Ministry of Education and the First Nations Education Steering Committee. For information about these principles, visit the [First Nations Education Steering Committee](#).

Required Materials

An effort has been made to create a course that is accessible to all students. There ought not be any reason to purchase expensive equipment, supplies, or reading materials. That said, *some* materials are required. These materials are generally considered household supplies. For example, students will need blank paper for the visual arts unit and they will need a common video camera such as a cellphone camera or webcam for the drama unit. If any of the required materials are *not* available to you, please contact your teacher so that, together, you may find a solution.

Keys to Success:

1. Actively work through each lesson, trying examples and reflecting on material.
2. Be open to trying something new
3. Make sure you understand all project requirements. If you can't figure it out - ASK!
4. Be sure to use the message system for regular communication with your instructor.
