Keys to Success:

1. Actively work through each lesson, trying examples and reflecting on material.
2. Use the Learning Guide as your tool for documenting your understanding. Complete it as you work through each course page.
3. Make sure you understand all assignment requirements. If you can't figure it out - ASK!
4. Do not use automatic translators or similar tools unless asked to do so in the course. You are not expected to be perfect in your French communication, but rather to practice what you are learning.
5. Be sure to use the message system for regular communication with your instructor.
