Inquiry Question
How do Fashion designers address the design factors that develop multi-piece outfits that work well together? Do items need to be in harmony in all aspects? Is it better to contrast design elements in different pieces?

Name: _____ Date: _____

General Instructions

Background:
Each design challenge is unique and there are so many things to consider when creating a look or feel. This challenge extrapolates as you add more than one item to a look. In this project you will experience this challenge and work toward designing a top and an accessory (scarf). All aspects of Fashion design should be considered including textile colour, pattern, drape, flow etc.

For this project, you will be completing 2 parts.

A simplified drawing is provided below if you need some help getting started starting. Draw a forward-facing torso with a top and scarf. You will also be adding detail and color to your final project.

Part 1.
Begin with creating a storyboard of inspiration for your top and scarf. Collect pictures, color samples, fabric, etc...Whatever will help you envision your end product.

Part 2.
You will be sketching a female or male upper torso with one arm bent on the waist. Begin with a trapezoid for upper and another for lower torso. Add circles for shoulders and arms extending from the circles. (As seen in the first drawing). Add cylinders for arms and outline the body. Add in some detail across chest and bust as well as creases in the waist and elbows. To draw the scarf, follow a line across the body and around the neck. Finish drawing details on the shirt and scarf. PHOTOGRAPH THE PROCESS-MINIMUM OF 8 PHOTOS OF DIFFERENT STAGES OF YOUR DRAWINGS

Some excellent images to also help with this project

Rubric

	3	2	1
Storyboard	Very creative. Development of your individual style is clearly shared through your photos, and items on the board.	You have met the criteria for the assignment but it lacks development of your individual style.	It is clear that you did not understand the purpose of this assignment. You are not successful in conveying a theme or feeling that you will be working form. It lacks visual appeal.
Layout of story board	The board is well laid out and presents collection with continuity, balance, and visual emphasis.	Some understanding of format and layout is demonstrated, but overall the collection is not presented with continuity, balance, and visual emphasis.	Format and layout show little to no understanding of continuity, balance, and visual emphasis. Does not attract viewer.
Proportions	Illustration is 9 heads with body parts in proportion	One or two elements of the illustration is not in proportion	More than two things are off on the proportions
Sketches -Photograph the process	Sketches are well done Excellent fine motor skills and effort. Excellent job on your hands/feet and face and details!	Sketches were produced using a basic level of skill. Some development of features like hands etc….	Little effort was shown to produce any amount development. Missing structures likes hands, hair etc.
Colour	Excellent job of using the color wheel and considering color schemes. Colors are blended and shading is excellent	Colour is used but varied techniques shading and blending is not developed	Some color was added in solid block and no blending or shading was done- little consideration for colour theory
Outfit	Complete outfit is sketched, including shoes and accessories.	Some basic level of the outfit is not included in the sketch.	No understanding of what an outfit should entail.

Possible score 18

Materials you'll need:

- Sketchbook
- Pencils, colouring pencil
- Ruler
- Eraser
- A camera

Project submission:

Take photos of the process and your final design. There should be a minimum of 8 photos.

Upload your story board and your photos below:
