

Inquiry Question

Identify geometric patterns in a hemisphere. Can I create a wigwam that looks like a real wigwam?

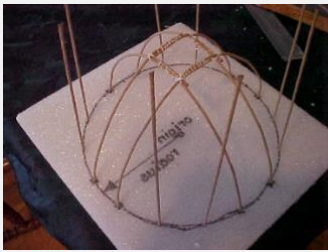

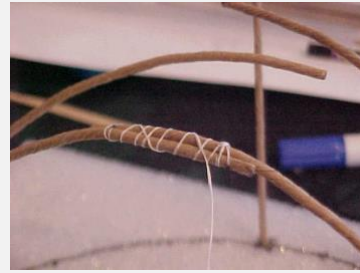

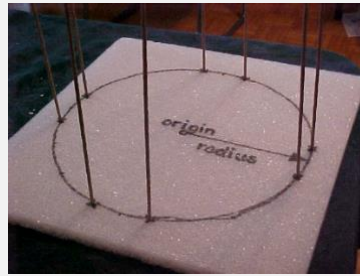

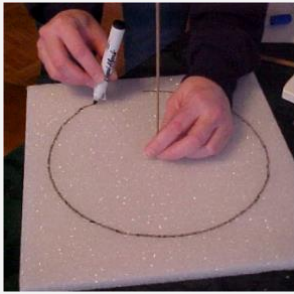

Name: _____ **Date:** _____

General Instructions

The word “wigwam” is derived from the Ojibwa term for “home” or “house.” The term “wigamig” does not necessarily refer to the domelike structure that is commonly associated with it, as some were oblong or conical, but early records describe them as crude circular shelters with little design.

Use the ideas below to help you construct the wigwam.

Materials you'll need:

- marker
- dental floss
- pipe cleaners
- heavy paper

Project submission:

Pictures of your finished building and pictures of you building it.
