

Inquiry Question

Can you become an expert on one of the physical regions of Canada?

Name: _____

Date: _____

General Instructions

After having learned about the 7 Physical Regions of Canada, choose one to research and become an expert on. Consider the experiences of the First Peoples who occupied and continue to occupy this region of Canada.

Materials you'll need:

- This document
- A pencil

Project submission:

This document fully completed.

Become an expert!

Choose a physiographic (physical) region that you have learned about in this chapter and work on filling out the following document. Become an expert on your chosen region and educate others!

Region: _____

What First Peoples traditionally occupied this region?

What is the climate like in this region?

How did the climate in this region affect the lives of First Peoples?

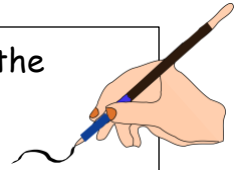

What natural resources can be found in the region?

How did the First Peoples in this region interact with/use these natural resources?

What do you think would be some positives and some negatives for First Peoples living in this region? What does this region provide, or lack?

Sketch an image of your region. Make sure you label different features of the region. (Landscape, plants, animals etc.)

Personal Reflection

Is this region somewhere that you would want to live? Why or why not?
